

Paint Rack Maintenance

STOP

To protect against overspray, we strongly recommend using 3M Booth Coating P/N 06840 (or any other preferred booth coating).

The Superstand pictured above was used for painting over 100 bumper covers, and was coated with Booth Coating before first use. It power-washes clean, as seen in the photo.

After power-washing, apply a few drops of tool oil to threaded areas to prevent rust. Re-apply Booth Coating after power-washing.

This maintenance is recommended for all Innovative Paint Racks:
Superstand(s) • Ultrarack • Octopus • Door-Fender
